

DISCIPLESHIP SYSTEMS: THE 3D JOURNEY

WITH REV. DR. QUINCY D. BROWN

3D - JOURNEY

DISCERN

DREAM

DEVELOP

This workshop will help clergy and laity walk through a transition of:
discern / dream / develop.

The mission of the church is about making disciples. Simply put the church is in the business of connecting people with Jesus through relationships.

Engagement requires the church to make the transition from receiving members into membership to disciples growing in discipleship.

For the church to be centered in spiritual leadership development the church needs to be centered in discipleship development.

The expectation that every person in a position of leadership is rooted in the journey toward maturing as a disciple. To get there each local faith community must start with defining what discipleship means in their context before they then can create a process and plan for developing disciples along the journey from living a life far from God to one centered in Christ.
