LifeStage Personal Investment Profile—Information and Instructions

Information

This form allows you to update your LifeStage Personal Investment Profile.

LifeStage Investment Management automates the investment of your Wespath-administered retirement plan account balance(s) by developing a customized target investment mix. This investment mix is based on your:

- Age
- Wespath-administered account balances, and
- LifeStage Personal Investment Profile.

You can personalize your Personal Investment Profile by updating it online or completing and submitting this form. If you are enrolled in LifeStage Investment Management and do not submit a LifeStage Personal Investment Profile, the default answers (indicated on the form) will be applied.

LifeStage Investment Management automatically manages Ministerial Pension Plan (MPP) account balances—you cannot opt out. If you have an MPP account balance and self-manage the investment of other retirement plan balances, continue to update your LifeStage Personal Investment Profile to ensure your MPP account balance is invested appropriately.

Review the *Understanding Your Investment Options* brochure and *Investment Funds Description* for more information.
